MANAGEMENT’S DISCUSSION OF PORTFOLIO PERFORMANCE

For the 12 months ended October 31, 2024, total returns were 30.21% for the Portfolio and 30.98% for the Russell 1000® Value Index, the Portfolio’s style benchmark (“benchmark”).

PERFORMANCE HIGHLIGHTS

U.S. equities had positive returns for the period. As measured by Russell indices, within the large cap universe, stocks with smaller market capitalizations underperformed larger stocks and value stocks underperformed growth stocks. High profitability stocks outperformed low profitability stocks within large cap stocks.

- Relative to the benchmark, the Portfolio’s:
- Focus on value stocks detracted, as the index included growth stocks with relative prices too high for inclusion in the portfolio, which outperformed.
 - Exclusion of highly regulated utilities detracted.

HOW DID THE PORTFOLIO PERFORM?

The Portfolio’s past performance is **not a good predictor** of the Portfolio’s future performance. The graph and table presented below do not reflect the deduction of taxes that a shareholder would pay on Portfolio distributions or redemption of Portfolio shares.

To eliminate duplicate mailings and reduce expenses, the Portfolio may deliver a single copy of certain shareholder documents, such as the Portfolio's summary prospectus/prospectus and annual and semi-annual reports, to related shareholders at the same address, even if accounts are registered in different names. This practice is known as "householding." The Portfolio will not household personal information documents, such as account statements. If you do not want the mailings of these documents to be combined with those of other members of your household, please call the transfer agent at (888) 576-1167. We will begin sending individual copies of the shareholder documents to you within 30 days of receiving your request.
